ITNH is your trusted partner in printing. From design to deployment, ITNH has more than 25 years of inkjet experience and we represent some of the best manufacturers in the world. Whether you're just starting out or looking for new technology to grow your business, we have the knowledge and products to make your printing a success.

Tried & True Solvent Printers

ITNH's line up of solvent printers are well established and have withstood the test of time. Solvent ink technology has become a standard in the sign graphics community for banner printing, vehicle graphics and many other print applications.

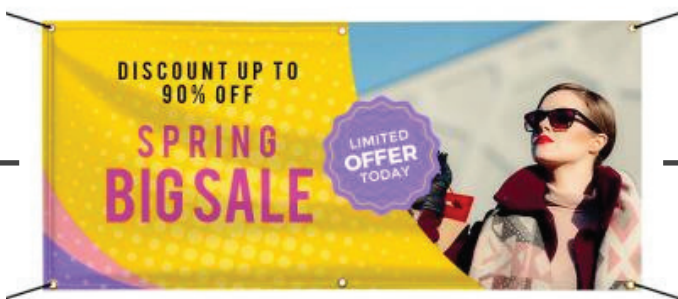

ITNH's Line Up of Solvent Printer Models Include:

Entry Level to High Production

Print/Contour Cut Combo Units

High Color Gamut Units

Sizes from 24" to 64" Wide

Trending UV Curable & Fabric Printers

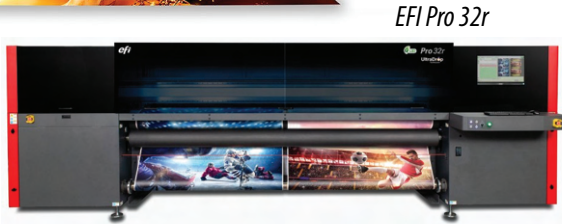

UV ink technology offers print makers more versatility than ever. The result is increased print capabilities and endless application possibilities. UV cured inkjet printers can print to substrates like PVC, Polyester, Polycarbonate and more. With opaque and affordable white ink in the mix, you can print on any color material you like.

Mimaki UCJV

Mimaki UJV55

EFI Pro 32r

Print to a Huge Variety of Substrates

Entry Level to High Production

32" wide to 126" wide

Spot Gloss Clear Ink

Opaque White Ink

No Gas Out Period

Inkjet Fabric Printing

If you're looking for dye-sub fabric graphics, INTH has you covered. With 20+ years of experience with dye-sub INTH has a variety of full solutions for those just starting and those growing their fabric business.

24" to 126" wide-
Bright Vibrant Colors-
Permanent and Washable-

UV Curable Flatbed Printers

Gone are the days where mounting vinyl to rigid boards are required. UV flatbed printers can print outstanding graphics direct to just about every type of sign board out there from Coroplast, to Di-bond, Acrylic and Sintra.

Variety of Sizes

-20" x 28"

-4' x 8'

-2m x 3m (6' x 10')

EFI Pro30f

Opaque White Ink

Spot Gloss Ink

3 Layer Printing (Color, White, Color)

Textured Printing

Mimaki JFX200 EX

Mimaki UJF 7151 Plus II

ADA/Braille Printing!

ITNH is proud to offer the brand new **Mutoh XPJ-661UF**. The new leader in raised letter and braille printing and it boasts the top speeds and lowest prices in the industry!.

Flatbed / Roll Hybrid Printers

Hybrid printers combine roll-to-roll printing with rigid substrates printing to deliver the best of both worlds. Often times, hybrid printers will be easier to move into business that lack large loading docks and wide doors. However, they are still capable of printing 64" wide rolls and up to 5' x 10' boards.

Mutoh VJ1627MH

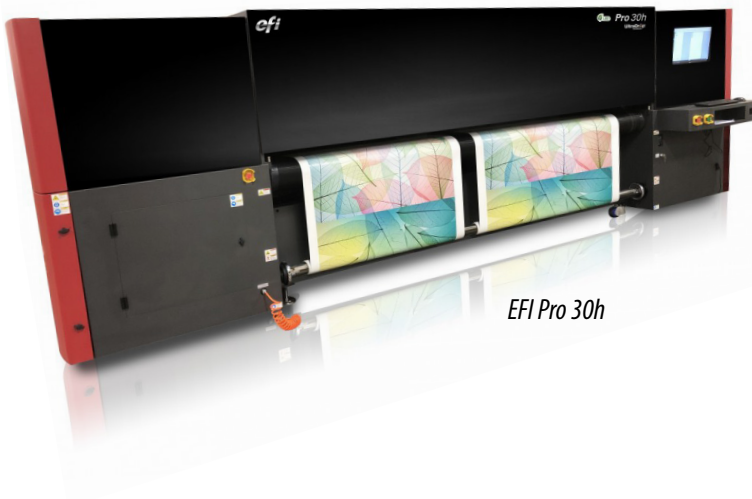

Print up to 64" Wide Rolls

Print Rigid Boards up to 5' x 10'

Solvent or UV Ink Options

Opaque White Ink (UV)

Easier move in for Smaller Spaces

EFI Pro 30h

"We have been customers of ITNH for many years and we are in the process of purchasing our third printer from them. When making business investments like this, it helps to know that we have the support of a knowledgeable partner that is committed to keeping us up and running with the latest and greatest inkjet technology available."

-Tony Clayton, Bluebird Graphic Solutions

Summa Cutters

Summa's leading and innovative cutting equipment helps companies and people to finish their applications to the highest standards. Companies from all over the world use Summa's cutting solutions for products in the printing, signage, display, apparel and packaging industries.

Roll Cutters

Variety of sizes and models to fit your application and budget

Advanced cutting technology delivers highest contour cut accuracy

Integrated intelligent features offer ease-of-use for operators

Summa S Class 2 Series

Flatbed Cutters

Amazing versatility with 6 bed size options and endless cutting tool options

Drag, Tangential and Router Modules available for max cutting capability

Efficient workflow solution with Summa GoSuite Software Platform

Summa Flatbed 1612

Laser Cutters

Accurate and precise fabric cutting

Amazingly fast cutting (up to 1 meter per second)

Laser seals fabric edges to prevent fraying

Offers significant savings on labor

Summa L3214 Laser-Cutter

Mimaki Cutters and Laminators

Mimaki AR Series cutters are perfect for any customer. These precision cutting devices offer repeatable fast cutting on a wide range of media. They are perfect for t-shirt transfers, decals, window lettering, cardstock projects and more!

Available in 29" and 61"

Continuous crop mark detection for contour cutting; half cut function for easier handling

Three selectable job speeds

Media can be loaded from front or back

Mimaki AR Series Cutter

The Mimaki LA-160W is easy to use and cost effective. This heat-assisted device improves laminate film adhesion, particularly to surfaces printed with UV-LED ink, and reduces the potential for silvering effect created by pressure sensitive laminates.

Mimaki LA-160W

62.2" maximum width

Fast throughput speeds and easy to use

Easy access to pressure handle and foot pedal

Take-up reel makes it easy for one person to operate the entire process

Designed to use with Mimaki Vision Laminate film and any of our roll-to-roll printers

Service & Support

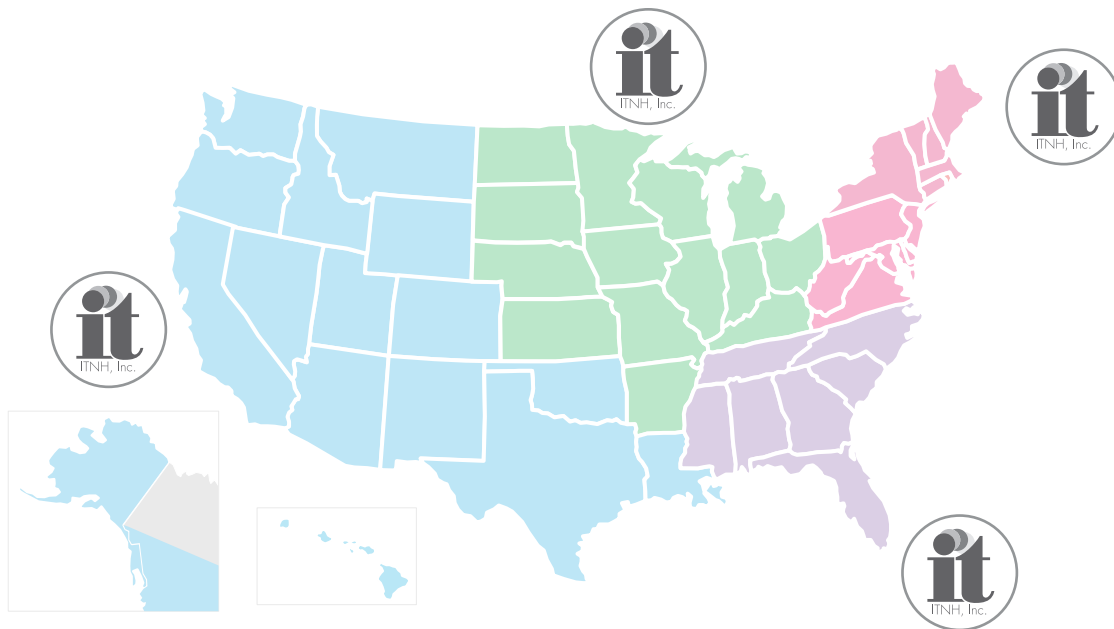

Born over 30 years ago as an inkjet service company, service is our backbone. Our team is dedicated to providing the highest quality equipment, software, consumables and customer care in the industry. Please reach out to us for any questions or concerns related to your equipment .
